WHAT IS CONTENT?

Content comes in many shapes and forms, including text copy, infographics, and video. Here are a few ideas for content pages you might want on your website:

- Frequently asked questions (FAQs)
- Glossary of commonly used legal terms
- Penal codes in the locations you practice
- Information about your firm's practice areas and the types of cases you handle
- "About Us" page for your law firm
- Biographies for individual attorneys
- Contact information
- Client testimonials and case studies
- News, events, and press releases
- Scholarships and community involvement
- Career opportunities
- Engaging social media posts
- Blog (only if you're prepared to post regularly; a neglected blog reflects poorly on your firm)
